SOFTWARE DEVELOPMENT AGREEMENT

E-Commerce Platform with ONDC Integration & Gig Worker Module

Agreement Date: _____

1. Parties to This Agreement

This Software Development Agreement ("Agreement") is entered into as of the date written above between:

Service Provider: Sowsi Technologies Pvt Ltd, a private limited company incorporated under the laws of India, having its registered office at Hyderabad, Telangana, India (hereinafter "Developer");

AND

Client:

Name / Company: _____
Address: _____
Contact Number: _____
Email Address: _____

The Service Provider and the Client are individually referred to as a "Party" and collectively as the "Parties."

2. Project Overview

Project Name: E-Commerce Platform with ONDC Network Integration and Gig Worker Module

Platforms: Android Mobile Application, E-Commerce Website, Admin Web Panel

Total Project Value: Rs. 1,80,000/- (Rupees One Lakh Eighty Thousand Only)

Project Duration: 2 to 3 months from the Effective Date

Effective Date: Date of signing this Agreement and receipt of the first milestone payment

3. Scope of Work

The Service Provider agrees to design, develop, test, and deliver the modules listed below. This Clause is the complete and exhaustive definition of the work covered under this Agreement. Any feature, functionality, or module not explicitly listed in this Clause is outside the scope of this Agreement and will require a separate written Change Request and additional consideration.

3.1 Customer Mobile Application (Android)

- User registration and login via mobile OTP (Firebase Auth)
- Home screen with product categories, featured items, and promotional banners
- Product listing with search and basic category and price filters
- Product detail page with images, description, and product variants
- Cart management — add, remove, and update quantity
- Checkout with saved delivery address and coupon code support
- Payment integration via Razorpay — UPI, cards, net banking, and wallets
- Order placement, order history, and live order status tracking
- Push notifications for order status updates via Firebase Cloud Messaging
- Basic ratings and reviews for delivered products

3.2 E-Commerce Website

- Responsive storefront accessible on desktop and mobile browsers
- Same product catalogue, cart, checkout, and account features as the mobile app
- SEO-friendly product and category pages
- Static pages: About, Contact, Privacy Policy, Terms of Service, Refund Policy, Shipping Policy

3.3 ONDC Integration — Seller Application (SAP)

- Registration of the platform as an ONDC Seller Application (SAP) on the ONDC registry
- Beckn Protocol API adapter covering core transaction calls: search, on_search, select, on_select, init, on_init, confirm, on_confirm, status, on_status, cancel, on_cancel, and track, on_track
- Product catalogue mapping and sync to ONDC network schema (Retail API v1.2.x)
- Order lifecycle management for ONDC-sourced orders — confirmation, packing, and fulfilment status updates
- Webhook and asynchronous callback engine for ONDC network responses
- Basic Issue and Grievance Management (IGM) flow as required by ONDC compliance
- Catalogue distribution toggle per product: IN_APP_ONLY, ONDC_ONLY, or HYBRID — configurable from the Admin Panel

Scope note: ONDC integration in this Agreement covers the Seller Application (SAP) role only. Buyer Application (BAP) integration — enabling consumers to discover products from other ONDC network sellers within the platform — is not included in this scope.

3.4 Gig Worker Module (Small Scale — In-App Feature)

- Gig worker registration with basic profile, service category selection (e.g., plumber, electrician, home cleaner), and availability toggle
- Service listing per worker: service name, description, and flat or hourly pricing
- Customer-facing service discovery: browse and search gig workers by category
- Booking flow: customer selects a worker, picks a date and time slot, and places a booking request
- Worker view (within the same Android application): view incoming booking requests, accept or decline
- Booking status tracking visible to both customer and worker
- Basic star rating for completed service bookings

Scope note: The Gig Worker Module is a lightweight in-app feature. It does not include ONDC Skilled Services API integration, geofenced radius routing, automated payout disbursement,

biometric verification, or turn-by-turn navigation for workers. These may be added in a future phase.

3.5 Admin Web Panel

- Dashboard: order summary, active gig bookings, and key platform metrics
- Product and catalogue management: add, edit, and delete products and categories; set ONDC distribution scope per product
- Order management: view, update status, and manage all customer and ONDC orders
- Gig worker management: approve or reject worker registrations, view and manage bookings, suspend workers
- Customer management: view profiles, order history, and block or unblock accounts
- Coupon and promotional banner management
- Basic ONDC transaction log and error monitoring view

3.6 Technology Stack

- Mobile Application: React Native (Android)
- Website and Admin Panel: React.js
- Backend and APIs: Node.js with Express.js
- Database: PostgreSQL
- ONDC Protocol: Beckn Protocol v1.2.x
- Authentication: Firebase Auth (OTP)
- Push Notifications: Firebase Cloud Messaging (FCM)
- Payments: Razorpay
- Media Storage: AWS S3 or Cloudinary (client account)
- Deployment: Docker on client-provided server

4. Project Investment & Payment Schedule

The total project consideration for the complete scope of work defined in Clause 3 is Rs. 1,80,000/- (Rupees One Lakh Eighty Thousand Only), exclusive of all third-party service charges, hosting costs, and platform fees.

#	Milestone	%	Amount (Rs.)
1	Project Signing & Agreement Execution — Token Advance	20%	Rs. 36,000/-
2	Mid-Development Checkpoint — Core Modules Live on Staging	30%	Rs. 54,000/-
3	Final APK / Web Build Delivery, Deployment & Project Handover	50%	Rs. 90,000/-
	TOTAL PROJECT CONSIDERATION	**100%**	**Rs. 1,80,000/-**

All payments are due within three (3) working days of the Service Provider notifying the Client of milestone completion. Payments shall be made via bank transfer or UPI to details provided separately. All milestone payments are non-refundable once work on the respective milestone has commenced. The Service Provider is not obligated to commence work on any milestone until the payment for the preceding milestone has been received in full.

5. Project Timeline

The Project shall be completed and delivered within two (2) to three (3) months from the Effective Date, subject to timely receipt of milestone payments, timely client feedback, and provision of all required assets and credentials as specified in Clause 8. Any delay caused by the Client's failure to provide inputs or approvals within the timeframes specified in Clause 8 shall result in a proportional extension of the delivery timeline with no penalty to the Service Provider.

6. Deliverables

Upon receipt of all milestone payments in full, the Service Provider shall deliver:

- Customer Mobile Application — Android APK file
- E-Commerce Website — deployed on client's server
- Admin Web Panel — deployed on client's server
- ONDC SAP integration — live on ONDC staging and production network
- Backend API (Node.js) with basic technical documentation

- Database schema and configuration scripts
- Figma UI/UX design source files
- Complete source code for all modules
- Play Store submission support (Android)
- Deployment assistance on client-designated server

7. Free Maintenance & Support

The Service Provider shall provide six (6) months of free post-delivery maintenance support commencing from the date of final delivery. This covers:

- Bug fixes and resolution of defects directly attributable to the original development work
- Minor UI/UX adjustments within the originally delivered scope
- Play Store submission and re-submission assistance
- Deployment and go-live technical support

The following are expressly excluded from the free maintenance scope:

- New features, enhancements, or functionality additions not listed in Clause 3
- Changes arising from third-party platform updates — OS upgrades, ONDC protocol version changes beyond v1.2.x, Razorpay API changes
- Issues caused by unauthorized modifications made by the Client or any third party
- Infrastructure, hosting, or server-side issues that are the Client's responsibility

8. Client Responsibilities

The Client agrees to provide the following within five (5) working days of the Effective Date or of the Service Provider's specific request, whichever is later:

- Brand assets: company logo (vector format), color palette, and font preferences
- Product catalogue data in structured format (Excel, CSV, or JSON)
- Razorpay account credentials and API keys
- Firebase project credentials for OTP authentication and push notifications
- AWS S3 or Cloudinary account credentials for media and image storage

- Cloud server access (SSH) — minimum specification: 2 vCPU, 4 GB RAM, Ubuntu 22.04 LTS
- Domain name and DNS management access for website and admin panel deployment
- ONDC network registration authorization or existing ONDC subscriber credentials, if any
- Timely feedback and design approvals at each milestone within three (3) working days of submission
- A single designated point of contact for all project communications

The following third-party costs are entirely the Client's responsibility and are not included in the project consideration under this Agreement:

- Cloud hosting and server infrastructure charges
- Domain name registration and SSL certificate
- Google Play Store developer account — one-time registration fee of USD 25
- Razorpay payment gateway transaction fees and MDR charges
- Firebase usage costs beyond the free tier
- AWS S3 or Cloudinary storage and bandwidth charges
- SMS or OTP gateway charges
- ONDC network participation fees, if applicable at time of registration

9. Intellectual Property

Upon receipt of all payments in full as per Clause 4, all intellectual property rights — including source code, design assets, databases, and documentation developed exclusively for this Project — shall be assigned to and vest in the Client. No intellectual property rights shall be transferred until all outstanding payments have been received in full by the Service Provider.

The Service Provider retains the right to utilise open-source libraries, frameworks, and reusable components in the development of the Project. Ownership of such components remains with their respective authors and is governed by their respective open-source licences.

The Service Provider reserves the right to reference this Project as a portfolio entry unless the Client requests otherwise in writing prior to the signing of this Agreement.

10. Payment Terms

All milestone payments are due within three (3) working days of milestone completion notice from the Service Provider. Late payment beyond fifteen (15) calendar days of the due date shall entitle the Service Provider to immediately suspend all development work, with no liability for resulting delays or timeline extensions.

All payments received are non-refundable once work on the corresponding milestone has commenced. The Service Provider shall not be obligated to deliver any milestone until the payment for the preceding milestone has been received in full.

11. Scope Protection

The scope of work is strictly and exclusively limited to the features and modules listed in Clause 3 of this Agreement. Any request to add, modify, or extend functionality beyond what is explicitly described in Clause 3 constitutes a Change Request.

All Change Requests must be submitted by the Client in writing. The Service Provider shall evaluate and respond with a revised effort and cost estimate within five (5) working days. Change Requests shall only be executed upon written approval by the Client and receipt of any applicable additional payment. Approved Change Requests may result in corresponding adjustments to the project timeline.

The following items referenced in any pre-agreement communications, product requirement documents, or verbal discussions are **expressly outside the scope of this Agreement** and shall require a separate written agreement if the Client wishes to include them: ONDC Buyer Application (BAP) integration, AI smart cart scanner using OCR or LLM, B2B wholesale pricing engine with MOQ and tiered slabs, creator affiliate and commission management system, two-way customer reputation and trust score system, automated TDS/TCS deduction and settlement engine, DPDP Act consent workflow with data deletion flows, DDoS mitigation or Web Application Firewall (WAF) infrastructure, biometric or gate entry systems, automated multi-LSP logistics dispatch engine, and geospatial PostGIS polygon queries. These may be scoped and addressed in a future phase engagement.

12. Confidentiality

Each Party agrees to hold in strict confidence all proprietary and confidential information disclosed by the other Party in connection with this Agreement, including but not limited to business data, technical specifications, design files, and source code. Neither Party shall disclose confidential information to any third party without the prior written consent of the disclosing Party, except as required by applicable law. These obligations shall survive termination of this Agreement for a period of three (3) years.

13. Limitation of Liability

In no event shall either Party be liable for any indirect, incidental, special, consequential, or punitive damages arising from or related to this Agreement, including but not limited to loss of revenue, loss of data, or loss of profits.

The Service Provider's total aggregate liability under this Agreement shall not exceed the total fees paid by the Client under this Agreement. The Service Provider shall not be liable for failures, delays, or losses resulting from third-party service outages (including ONDC network downtime, Razorpay outages, or Firebase failures), infrastructure failures on the Client's server, or force majeure events. The Service Provider does not guarantee ONDC network approval timelines, as these are governed solely by the ONDC authority and DPIIT and are outside the Service Provider's control.

14. Termination

Either Party may terminate this Agreement by providing thirty (30) days' prior written notice to the other Party.

In the event of termination by the Client, the Client shall pay for all work completed up to the date of termination, calculated on a pro-rata basis of the applicable milestone amounts. All advance payments already received are non-refundable.

The Service Provider may terminate this Agreement immediately upon written notice if the Client fails to make any payment due under this Agreement within fifteen (15) days of the due date, or commits a material breach that remains uncured for fifteen (15) days after written notice. Upon termination, the Service Provider shall deliver all completed work to the Client subject to full settlement of all outstanding dues.

15. Dispute Resolution

The Parties shall first attempt to resolve any dispute arising out of or in connection with this Agreement through good-faith negotiation within fifteen (15) days of written notice of the dispute.

If the dispute cannot be resolved by negotiation, it shall be referred to arbitration in accordance with the Arbitration and Conciliation Act, 1996 (as amended). The seat of arbitration shall be Hyderabad, Telangana, India. This Agreement shall be governed by and construed in accordance with the laws of India. The courts at Hyderabad, Telangana shall have exclusive jurisdiction over all disputes arising under this Agreement.

16. Acknowledgement

Both Parties confirm that they have read, fully understood, and agree to all terms and conditions set forth in this Agreement. Both Parties further acknowledge that:

- The scope of work in Clause 3 is the complete and final agreed scope for the consideration of Rs. 1,80,000/-.
- Any features, modules, or functionality not explicitly listed in Clause 3 are outside this Agreement.
- No verbal discussions, emails, product requirement documents, or any prior communications shall override or expand the written scope in Clause 3.
- The Client has independently reviewed and accepted the project scope, timeline, milestone split, and payment terms.

17. Signatures

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the date first written above.
